RE: Case # 93-0240

Dear Sirs:

The location of the cellular telephone tower is not clearly marked on the survey map I received January 28, 1993.

Reading the public notice and viewing the map, I have to assume the antennae for the phone system will be attached to the Licking Valley Radio Corp. tower that already exists.

The problem with this tower is that Licking Valley Radio Corp. has damaged property located next to their leasehold and have also trespassed. Another problem is the interference it causes on our telephone. I have replaced the phones in my house several times, and I still can hear whatever is being transmitted over the radio while I am having a telephone conversation.

Enclosed is a partial copy of the map I received with the public notice. I have marked the areas of damage.

Thank you.

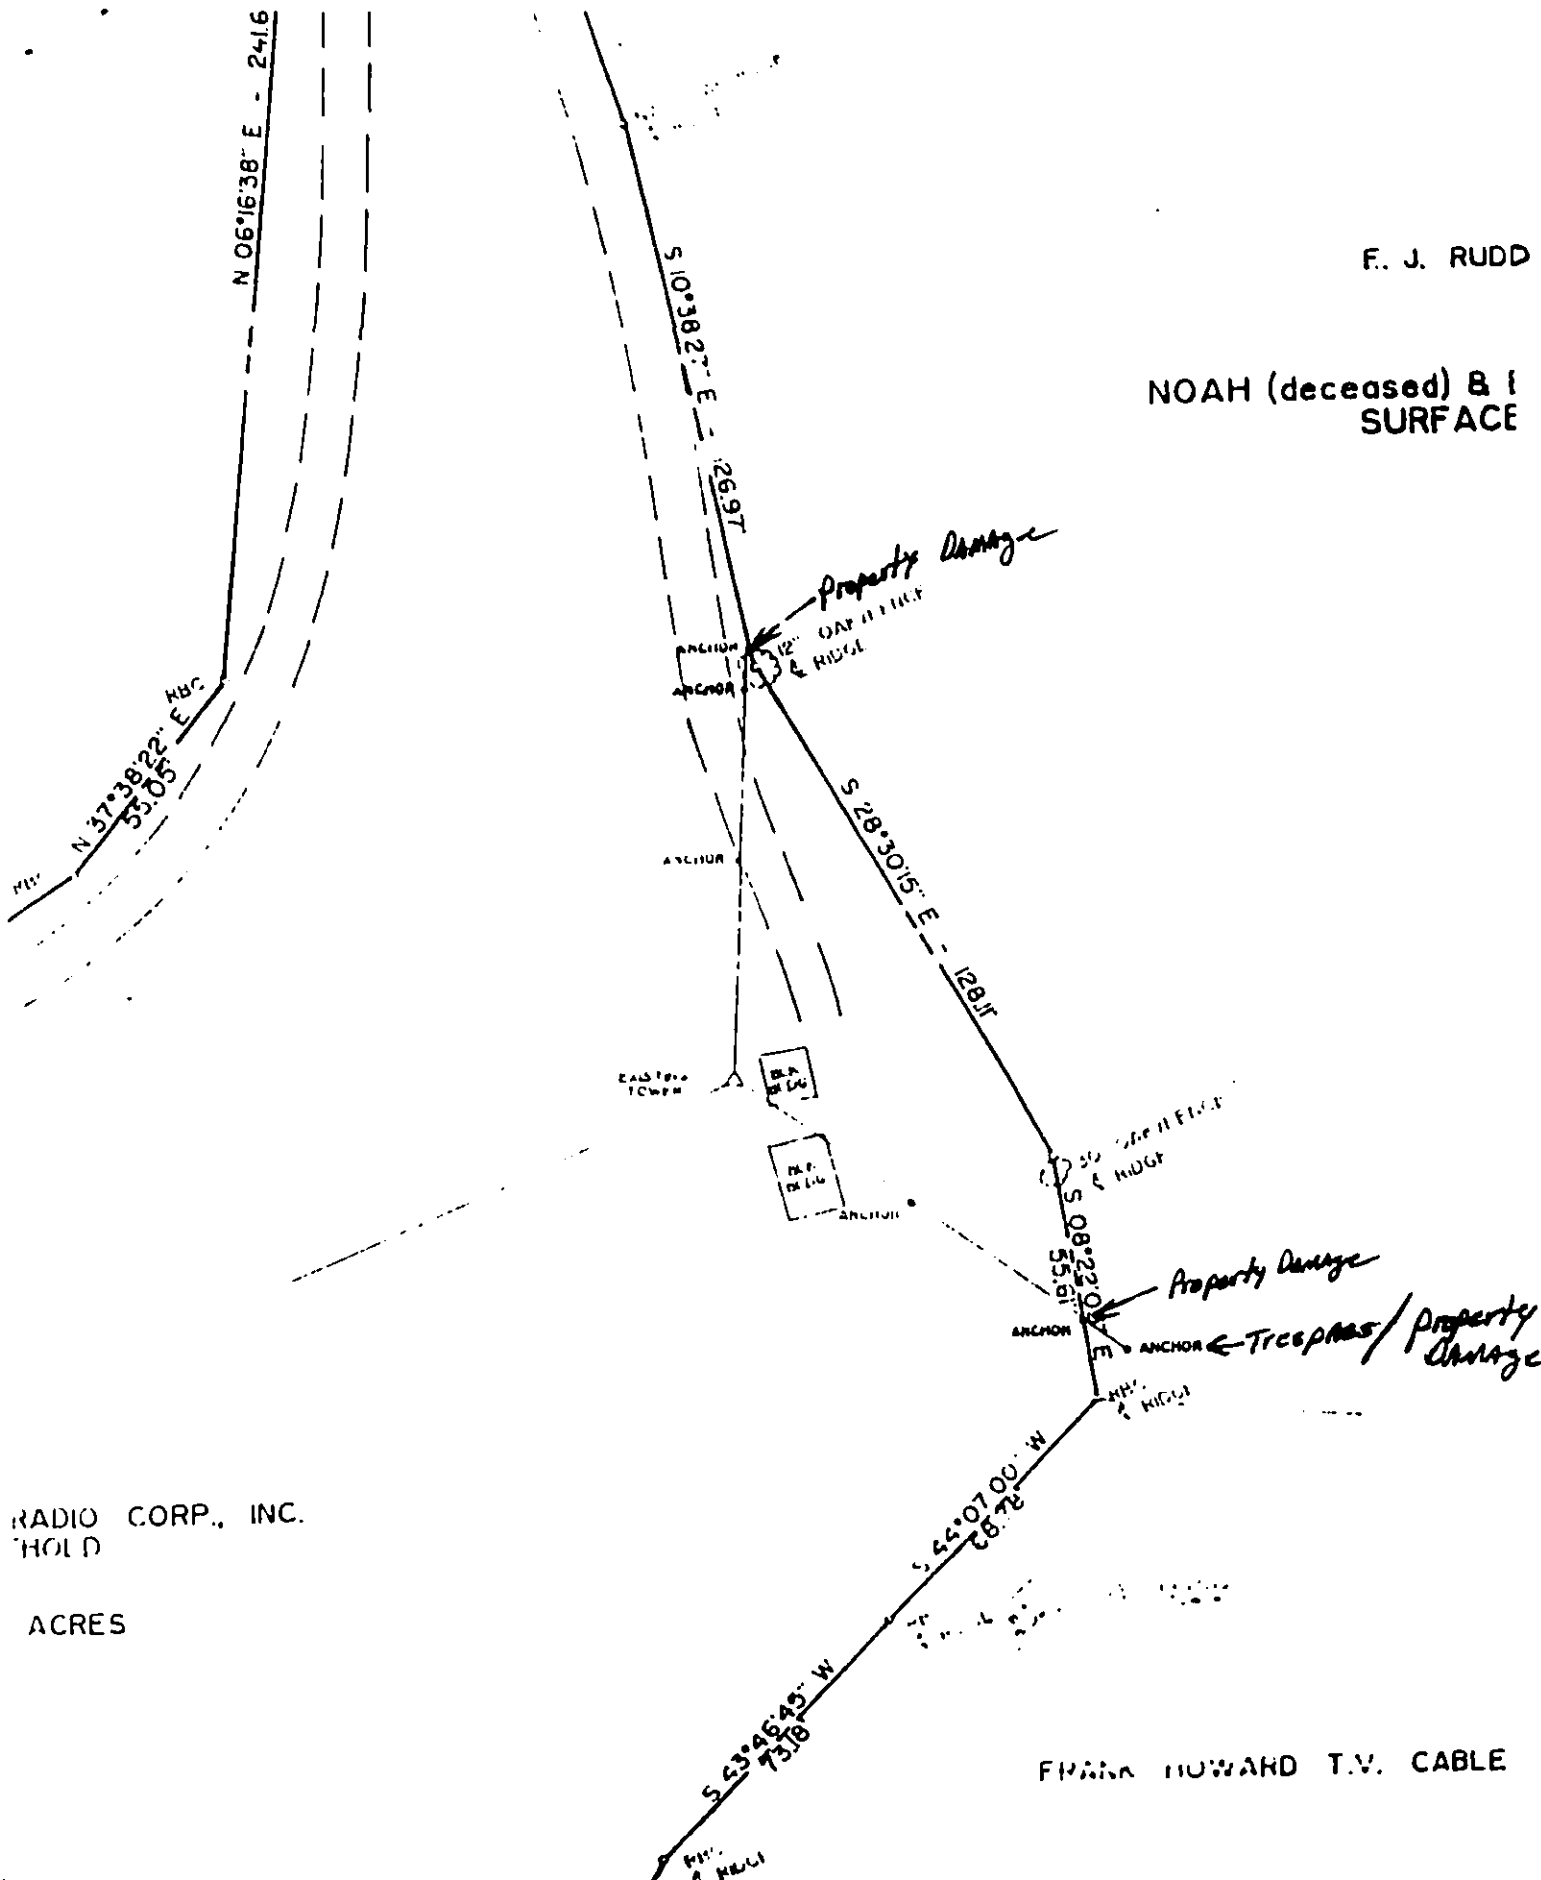

Sincerely yours,

Jesse L. Rudd
